

Who is Solus power & QinetiQ?

Solus Power, a leading innovator in electric vehicle (EV) charging solutions, has signed a Memorandum of Understanding (MOU) with global defence and security company, QinetiQ. Solus Power is at the forefront of an energy revolution, driven by the global shift towards sustainable and innovative energy solutions.

Where is Solus power based?

Solus Power is headquartered in London, with our Engineering office located at the Warwick Innovation Centre. We have a global presence, boasting offices and partners in various countries. What are the benefits of Solus Power's off-grid solutions?

Why is Solus power important?

Through the mobilisation of the grid, Solus Power is at the forefront of bringing about a more flexible, sustainable, and robust energy future, positioning itself as a critical ally in national and global security efforts.

What is Solus power's Titan?

Solus Power's Titan represents a groundbreaking advancement in the energy sector, introducing an off-grid, rapid EV charging and energy storage system with unparalleled versatility for commercial and military applications.

What is Solus power's Titan EV charging system?

Solus Power's Titan is a groundbreaking off-grid EV charging and energy storage system with unmatched versatility for commercial, Defence and Security use. It meets the growing demand for reliable EV charging infrastructure in airport car parking, car hire, and rental services, improving operational efficiency and user experience.

Will China build Namibia's largest solar power plant?

Namibia's state-owned power utility NamPower on Monday said it had signed a contract with two Chinese firms to start building the country's largest solar power plant.

WINDHOEK, Sept. 9 (Xinhua) -- Namibia's state-owned power utility, NamPower, on Monday signed an engineering, procurement, and construction contract with a Chinese joint venture for the 100MW Rosh Pinah Solar PV power plant.

Solus Power is a provider of EV charging solutions. It offers energy storage, backup systems support, sustainability, rapid deployment, and other services. The company caters to the civilian, commercial, defense, and security sectors.

Solus Power is leading the way in revolutionizing the energy sector through the development of off-grid

mobile DC-to-DC rapid charging and energy storage technologies. This innovative approach allows for high-power charging solutions that operate independently off traditional grid infra-structure, presenting significant opportunities across a ...

Solus Power is at the cutting edge of delivering versatile energy solutions that cater to a broad spectrum of needs. Our pioneering technology, which combines rapid charging with robust energy storage, is designed for quick deployment ...

Solus Power is at the forefront of innovation in the energy sector, specialising in off-grid DC-to-DC rapid smart charging and energy storage solutions. Through strategic collaboration with key players in the Defence and technology industries, Solus Power is dedicated to delivering advanced and sustainable energy solutions to the Defence ...

Solus Power is at the cutting edge of delivering versatile energy solutions that cater to a broad spectrum of needs. Our pioneering technology, which combines rapid charging with robust energy storage, is designed for quick deployment within weeks, eliminating the need for significant capital investment or the challenges of grid connectivity.

Solus Power, a UK battery innovator and pioneer of portable electric vehicle charging solutions, has received financial backing from US investment firm Marbanc International to expedite the development of its technology to market.
