

Order today, ships today. 171 - 120VAC, 132VAC Terminals Output 1.75A (0.23kVA) Constant Current Variable Transformer Input Terminals from Staco Energy Products Company. Pricing and Availability on millions of electronic components from Digi-Key Electronics.

Since 1937, Staco Energy Products has been a pioneer in design and construction of both standard and specialized variable transformers, AC voltage control, sophisticated power conditioners and UPS equipment.

Staco Energy Products is a manufacturer of UPS, power factor correction, active harmonic filters, voltage regulation, power conditioning and variable transformers for commercial, industrial, utility and government applications. Power quality can present many challenges.

Staco Energy Products Company is one of the longest lasting innovators of Power Quality and Voltage Control technologies in the world. In an industry where companies come and go, Staco Energy continues to provide the reliability and continuity you need. We support products we made three months ago, we support products we made thirty years ago.

We offer a broad range of electrical products, from variable transformers and voltage regulators to sophisticated power conditioners, capacitor/filter assemblies and UPS equipment, and the expert knowledge to know which technology is right for you.
