Earlier this year, our dream was realized: South Georgia and the South Sandwich Islands" received the highest MPA designation status possible. We were elated to learn that 449,000 square kilometers of the region have been entirely closed off from fishing activity.

South Georgia and the South Sandwich Islands are a collection of islands in the South Atlantic Ocean. Most of the islands, rising steeply from the sea, are rugged and mountainous. At higher elevations, the islands are permanently covered with ice and snow.

South Georgia and the South Sandwich Islands are a collection of exceptionally remote islands in the Southern Atlantic. Although considered as one entity they represent two physically distinct island groups, with the South Georgia cluster ranging between 560 and 800km west of the South Sandwich Island arc (Figure 1).

South Georgia and South Sandwich Islands. Key Data. General information: Constitutional status: Overseas Territory of the United Kingdom; Land area: 3,903 square kilometers; Population: no permanent population; Energy transition: Installed capacity in 2019: MW; Power generation in 2020: GWh; Renewable energy generation capacity: MW; Main energy ...
