

Where can I buy solar panels in South Sudan?

Their largest market is the Central Equatoria state. Founded in 2011 and opened its first branch in Asmara, Eritrea. Branches located in South Sudan, Uganda, and Dubai. In South Sudan, they have shops in Yei, Wau, Juba and Malakal. -Specialise in large solar home systems with a minimum capacity of 600W onwards.

How many energy companies are there in South Sudan?

There are about fourteen of-grid energy companies in South Sudan, and their services include i) selling solar products, ii) engineering, procurement, and construction (EPC), iii) independent power production (IPPs) and iv) developing mini-grids.

How do solar companies work in South Sudan?

Of-grid solar companies in South Sudan focus on serving large institutions and commercial customers, who make up over 80% of their sales. They prefer serving international NGOs and aid organisations operating in the country since these organisations can readily pay, unlike households. This leaves the household market underserved.

How can humanitarian agencies contribute to solar energy in South Sudan?

Refugee contexts in countries such as Jordan have also led to the increased transition to solar energy through donor-led initiatives. Humanitarian agencies can also play a critical role in generating demand for solar systems in South Sudan refugee settlements, where biomass is predominantly used as energy source (Lemi & La Belle, 2020).

Will South Sudan build a 12 MWp solar plant in Juba?

Kampala-based developer Aptech Africa says it plans to build a 12 MWp solar plant in Juba. The capital of South Sudan is set to host a new 12 MWp grid-connected solar plant.

Does South Sudan have a solar PV market?

The solar PV market in South Sudan is growing steadily, but minimal information is available. Additionally, most companies operating in the country within the value chain do not have an online presence. As such, the study mainly relied on primary information collected from the companies with which key informant interviews were conducted.

The government does not offer incentive for clean energy investment and in early 2022 had a land dispute with a solar company looking to invest in South Sudan causing delays and possible future cancellation of the project. ... The SSACC lacks the resources or political support to investigate corruption. ... South Sudan has limited social safety ...

o Shortly after independence in 2011, South Sudan fell into civil war. A regional peace agree - ment has effectively collapsed, and the international community has no clear strategy on how to proceed. o The war has destroyed South Sudan's limited infrastructure, triggering an ...

The most commonly-used energy sources are biomass and petroleum products. Forests, animal wastes, agricultural residues, and sugar cane are all biomass resources in South Sudan. [38]. The country's reliance on oil pervades all aspects of the economy, accounting for roughly 72 % of the 700 Ktoe total primary energy supply.

In this context, South Sudan needs to make prudent use of its oil revenues in this transition period, to diversify its economy, expand its tax base and its tax capacity from its current 3.6% of ...

In Juba, South Sudan, an innovator in the solar industry has designed, supplied and installed a complete solar water pumping system and storage tanks. Leveraging the abundant sunlight that bathes the region, the solar pump harnesses renewable energy to extract water from boreholes, providing a reliable and cost-effective water supply.

The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general public, and allows users to quickly ...

Petronella Halwiindi is UNOPS Country Manager covering South Sudan from 16 January 2024. She is a Zambian national, with more than 19 years of experience working with International NGOs since 2004 and has served in various functions and has served in Country Director positions for 11 years in Malawi, Zambia and Uganda.

When South Sudan achieved independence in 2011, many South Sudanese women hoped it would lead to improvements on gender and security issues. In the years since, recurring civil conflict has unfortunately delayed these aspirations -- but as with the independence movement, women have been at the forefront of the country's resurgent peace process.
