Paul van Zijl assumes the role of Group Chief Executive Officer (formerly Group Chief Financial Officer of Starsight Energy) Charl Alheit assumes the role of Group Chief Investment Officer (formerly Chief Investment Officer for SolarAfrica) Max Rieg assumes the role of Group Commercial Director (formerly Commercial Director of Starsight Energy)

Why is Iraq's energy system vulnerable?

However the capacity to capture and process this gas has not kept pace. The inability to utilise its gas riches means that the country's gas deficit has grown, and Iraq now relies on imports from Iran to meet increasing demand. This has introduced a number of vulnerabilities to Iraq's energy system.

How has Iraq's energy system changed over the years?

This has introduced a number of vulnerabilities to Iraq's energy system. For example, payment issues last summer led to Iran cutting exports, significantly exacerbating electricity shortages in Iraq during peak seasonal demand. As oil production has soared, so has the amount of associated gas produced alongside.

What is Iraq's long-term strategy?

Drawing on external subject matter expertise to provide sustainable skills growth for local people is another key tenet of Iraq's long-term strategy. At KBR we have been working in Iraq since the 1970s, developing a local workforce, skilled in areas such as emissions reductions, gas monetization and green ammonia production.
