A: Dear Customer,the Jackery Solar Generator 300 Plus, with a capacity of 288Wh and an output power of
300W, is not designed to charge high-power electrical appliances (An average hot plate and electric griddle
will draw approximately 1200-1500 watts of power). However, for such applications, you may consider a
higher-capacity power station that can meet the specific ...

Sukhig solar generators offer a range of benefits, including cost-effectiveness, eco-friendliness, and low

For solar charging, you need a special solar adapter cable that some manufacturers include in the solar
generator kit. An average solar charging time is around 5 hours, but large generators like the Renogy Lyncan
5000 and the Bluetti EP500 have a dual-charging mode which lets you charge from the grid and solar at the
same time.

The 800 watts Sukhig solar generator is a reliable and efficient off-grid power solution designed for homes,
small businesses, and outdoor events. This solar generator combines a 24V, 800W solar panel, a 24V, 400Ah
deep cycle battery, and a 2000W pure sine wave inverter to provide clean and stable energy.
