

What does Sun Microsystems do?

Sun Microsystems, Inc. (Sun for short) was an American technology company that sold computers, computer components, software, and information technology services and created the Java programming language, the Solaris operating system, ZFS, the Network File System (NFS), and SPARC microprocessors.

When did Sun buy StorageTek?

On June 2, 2005, Sun announced it would purchase Storage Technology Corporation (StorageTek) for US\$4.1 billion in cash, or \$37.00 per share, a deal completed in August 2005. In 2006, Sun introduced the Sun StorageTek 5800 System, the first application-aware programmable storage solution.

Did Sun sell its own storage system?

Sun sold its own storage system to complement its system offerings; it has also made several storage-related acquisitions. On June 2, 2005, Sun announced it would purchase Storage Technology Corporation (StorageTek) for US\$4.1 billion in cash, or \$37.00 per share, a deal completed in August 2005.

Who founded Sun Microsystems?

On February 24, 1982, Scott McNealy, Andy Bechtolsheim, and Vinod Khosla, all Stanford graduate students, founded Sun Microsystems. Bill Joy of Berkeley, a primary developer of the Berkeley Software Distribution (BSD), joined soon after and is counted as one of the original founders.

What is a Sun Storage 7000 Unified Storage System?

In late 2008 Sun announced the Sun Storage 7000 Unified Storage systems (codenamed Amber Road). Transparent placement of data in the systems' solid-state drives (SSD) and conventional hard drives was managed by ZFS to take advantage of the speed of SSDs and the economy of conventional hard disks.

What is Sun StorageTek 5800?

In 2006, Sun introduced the Sun StorageTek 5800 System, the first application-aware programmable storage solution. In 2008, Sun contributed the source code of the StorageTek 5800 System under the BSD license. Sun announced the Sun Open Storage platform in 2008 built with open source technologies.

Derfor var det et nødvendigt træk, da Sun i forret annoncerede, at det ville købe storage-leverandøren Storagetek for omkring 25 milliarder kroner. Det vurderer analysefirmaet IDC, som kalder det et dramatisk skifte for Sun, som tidligere har forsøgt at opretholde et image som et visionært og fremtidsorienteret firma.
