

Are Suntech Solar modules safe?

Suntech solar modules comply with IEC61215 and IEC61730 standards, meet the requirements of safety Class II, and its application class rating is Class A: The module can be used in public exposure, voltage greater than 50V or power greater than 240W systems.

What are the safety precautions for a Wuxi Suntech photovoltaic module?

Wuxi Suntech Power Co., Ltd photovoltaic module (hereafter referred to as "module"). o Do not use mirrors, other magnifiers or antifically concentrated sunlight onto the Wuxi Suntech Power Co., Ltd referred to as "Suntech". Use components such as ground fault circuit breakers and fuses as required by Sorting label local authority.

Is Suntech liable if a module is disassembled?

Suntech shall not be liable for any product defect or destruction, personal injury or property damage caused by any operation during the disposal of modules (including but not limited to disassembly/packaging, loading and unloading, handling, transportation, storage, installation, connection, disassembly, operation and maintenance, etc.).

How to install a photovoltaic light fixture?

The fixture shall be installed within the scope authorized by Suntech. The inside side of the fixture and the side of the photovoltaic module should be completely fitted. In any fixture installation mode, the fixture must not touch the glass or deform the frame of the bracket or module.

Does Suntech install salt spray?

From 50 meters to 500 meters, Suntech considers it to be "offshore" installation and must comply with the relevant provisions of "Offshore Installation" in this manual. At 500 meters and above, Suntech considers the risk of salt spray corrosion to be low and requires only annual preventive maintenance.

This installation manual contains important electrical and mechanical installation information as well as safety information that you must be familiar with, providing important safety instructions ...

Before installing a solar photovoltaic system, installers should familiarize themselves with its mechanical and electrical requirements. Keep this guide in a safe place for future reference ...

This installation manual is applicable for all pv system of 500 m or more away Installation methods from the coastline. If your system gets closer please contact Suntech's Global Quality o ...

(hereinafter referred to as "Suntech") photovoltaic modules (hereinafter referred to as "PV modules" or

"modules"). Installers must read and understand this guide prior to installation. For ...

Finalidad de este manual o Este manual contiene informaci&#243;n acerca de la instalaci&#243;n y la correcta manipulaci&#243;n de los m&#243;dulos fotovoltaicos (en adelante &#171;los m&#243;dulos&#187;) de Suntech ...

o This guide contains information regarding the installation and safe handling of electric systems. Wuxi Suntech Power Co., Ltd photovoltaic module (hereafter referred to as "module"). o Do not use mirrors, other magnifiers or antifically ...
