

What is trackso solar?

TrackSo Solar is a cloud based energy management IoT platform to track your solar PV system's performance, identify anomalies and provide immediate support, giving you a full control over your system without actually being present there.

What is trackso & IoT & energy management?

Trackso simplifies the way you operate and maintain your assets. IoT & Energy Management A cloud-based IoT platform to enable you to monitor, operate and maintain your energy systems remotely, giving you full power to optimize system performance and minimize maintenance costs. If playback doesn't begin shortly, try restarting your device.

What is trackso & how does it work?

Trackso allows you to communicate with all such components irrespective of their brand and type. TrackSo is an IoT based solar PV monitoring and analytics platform to track performance, spot or predict failures and provide proactive maintenance of your assets, giving you complete control without actually being present there.

How to contact trackso for solar remote monitoring requirements?

Visit us at For any solar remote monitoring requirements, feel free to reach out to us at sales@trackso.in or call us at +91-8800606858/8800550886#trackso #eid #solarremotemonitoring #solarmonitoring #solarenergy #iot #dataloggers #powercontrol #dgsync #zeroexport

What is TrackSo's Knowledge Base?

TrackSo's Knowledge Base is a self-service resource to download data sheets for all models of IoT gateways and weather monitoring sensors, as well as installation and configuration manuals for all brands of inverters, meters, VFDs, and weather stations.

TrackSo IoT data loggers are smart plug "n" play gateways that can be connected with multiple and more than 100+ brands of solar PV inverters, energy meters, weather monitoring stations, VFDs...

Trackso simplifies the way you operate and maintain your assets. IoT & Energy Management A cloud-based IoT platform to enable you to monitor, operate and maintain your energy systems remotely, giving you full power to optimize system performance and minimize maintenance costs.

TrackSo is an IoT based SaaS product of Free Spirits Green Labs Pvt. Ltd. TrackSo monitors & manages energy assets to provide you with optimised information, hence allowing you to derive key business outcomes. Product is live since 2017.

TrackSo, a SaaS product by Free Spirits Green Labs, is an IoT based energy management platform to track performance, spot or predict failures and provide proactive maintenance of your assets, giving you a full control without actually being present there.
