

The prices of solar panels in Nairobi vary widely based on system size, panel type, brand, and the overall complexity of installation. Residential systems typically range from KES 70,000 to KES 200,000, while commercial setups can cost significantly more.

We are a leading supplier of quality solar products in the country for many years now. Our wide range of products include solar panels, solar batteries, solar water heaters, solar lights and so much more. Our solar panels can be used for both residential and commercial installations.
