Batteries are a crucial piece of the puzzle if we are to achieve Sweden's climate goals with net-zero emissions by 2045. Batteries enable the phasing out of fossil fuels and increase flexibility in the electricity system through energy storage. The Swedish battery industry is at the forefront.

RHY Battery offers high-quality batteries specifically tailored for power tools, ensuring optimal performance and durability. Designed to meet the needs of a variety of power tools, from drills to saws.

Batteries are becoming increasingly important in our electrified and fossil-free society. Battery usage involves all from households and mobility solutions to industry and smart cities. In addition, batteries can be used as

energy storage to balance our energy needs.
