

What type of energy is primarily used in Syria?

In Syria, most energy is based on oil and gas. Some energy infrastructure was damaged by the Syrian civil war. In the 2000s, Syria's electric power system struggled to meet the growing demands presented by an increasingly energy-hungry society.

Why did a tanker carry Iranian oil to Syria?

LONDON, Dec 9 (Reuters) - A tanker carrying Iranian oil to Syria turned round in the Red Sea to head away from its original destination after the fall of Syrian President Bashar al-Assad. Syria's 13-year civil war crippled the country's energy sector, making it highly reliant on imports from Iran. Below are facts about Syria's energy sector.

Why is Syria reliant on Iran?

Syria's 13-year civil war crippled the country's energy sector, making it highly reliant on imports from Iran. Below are facts about Syria's energy sector. **Syria has not exported oil since late 2011, when international sanctions came into force, and has become dependent on fuel imports from Iran to keep power supplies running.

How much oil does Syria produce a day?

**Prior to sanctions, Syria produced some 383,000 barrels per day (bpd) of oil and liquids, according to previous analysis by the U.S. Energy Information Administration (EIA). **Oil and liquid production fell to 40,000 bpd in 2023, according to separate estimates from the Energy Institute.

How many power plants were destroyed in Syria?

Violence and looting destroyed three major power plants in Syria between 2015 and 2017: the Aleppo Thermal Station, Zayzoon in Idlib, and al-Taim in Deir Ezzor. Pre-war, these three plants accounted for almost one-fifth of Syria's total generation capacity.

Why is energy demand increasing in Syria?

Energy demand in Syria has been increasing at a rate of roughly 7.5% per year due to the expansion of the industrial and service sectors, the spread of energy-intensive home appliances, and state policies that encouraged wasteful energy practices, such as high subsidies and low tariffs.

Abu Dhabi Future Energy Company PJSC - Masdar ("Masdar"), the United Arab Emirates' clean energy powerhouse, today announced the closing of its acquisition of a 50 percent stake in Terra-Gen Power Holdings II, LLC ("Terra-Gen" or "the Company"), one of the largest independent renewable energy producers in the United States, from Energy Capital ...
