

São Tomé and Príncipe build your own solar panel system

Does Sao Tome & Principe have solar power?

According to data from the International Renewable Energy Agency (IRENA), Sao Tome and Principe did not have any grid-connected solar generation capacity installed at the end of 2021. The World Bank says Sao Tome and Principe has an electricity access rate of around 76%, with 92% of the total coming from imported diesel.

Who owns electricity in Sao Tome & Principe?

Electrical power in the country is provided by the Empresa de Agua e Electricidade (EMAE), a public-private company that is 51% owned by the Government of Sao Tome and Principe, and the remaining 41% is jointly owned by the private sector, with Sonangol holding 40% and a local anonymous enterprise owning the remaining 9%.

What is the Sao Tome & Principe project?

Brief Description: The objective of the project is to introduce an integrated energy and ecosystems-based approach to grid/isolated-grid-based mini/small hydro-electricity generation in Sao Tome and Principe by leveraging \$ 20.7 million in multilateral and private sector financing over its five-year implementation period.

Where will solar power plants be installed in so Tomé?

The company will collaborate with the public utility Power and Water Company (EMAE) to install solar power plants across the country. The first phase of the program will include the installation of solar PV plants at the São Tomé international airport, as well as on the island of Príncipe, with capacities of 1.1 kW and 300 kW, respectively.

How long does it take to build a photovoltaic plant in so Tomé?

The first phase of the project will see the installation of photovoltaic plants at the country's national airport in São Tomé, as well as on the island of Príncipe. Cleanwatts vice chairman and co-founder Basilio Simoes said the two airport projects would take less than three months (for the smaller plant) and up to two years to build.

When will a 300 kW power plant be installed in Sao Tome?

Cleanwatts told pv magazine that it started developing 1.1 MW at Sao Tome airport and 300 kWp at Principe airport in August. It expects to complete the arrays by the end of this year. Another 300 kWp will be installed next year at other communities in Sao Tome.
