

The outline map of Sao Tome and Principe shows the two archipelagos of Sao Tome and Principe constituting the country. Sao Tome, the largest island in the country, forms the southern archipelago while Principe is the northern one.

The Human Rights Measurement Initiative (HRMI) finds that Sao Tome and Principe is fulfilling only 83.8% of its expected commitments to the right to education based on the country's level of income. HRMI breaks down the right to education by looking at the rights to both primary education and secondary education.
