

Does Tajikistan have a solar power plant?

The project also includes a hybrid energy storage power plant rated for 180-kilowatt hours. The new solar plant is a direct result of successful cooperation between the Government of Tajikistan, USAID, and Pamir Energy Company.

Is biomass a source of electricity in Tajikistan?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Tajikistan: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Why did USAID support the installation of solar plant in Murghob?

At request of the Tajik Ministry of Energy and Water Resources, USAID supported the installation of the solar plant in Murghob to complement the nearby 1.5 megawatt 'Tajikistan' (formerly Aksu) hydropower plant and add additional clean, renewable energy to the local grid.
