Several renewable energy resources, such as geothermal, solar, wind, biomass, and mini-hydropower, are extensive in Tanzania. The nation's energy market is dominated by the state-owned organization called Tanzania Electricity Supply Company Limited (TANESCO), which does generation and transmission/distribution throughout the country.

Tanzania has selected U.S. law firm Baker Botts LLP as an adviser to help conclude talks with international oil companies over a long-delayed \$30 billion liquefied natural gas terminal. The nation wants to sign a Host Government Agreement with oil majors, including Equinor ASA and Shell Plc by April, Energy Minister January Makamba said.

Founded in 1989 by Mike Nandwani, Energy Asia Group Pte Ltd initially specialized in used tubulars, ranging from drill pipes to drill collars and heavyweight pipes, catering to the drilling requirements of contractors in the region. Today, Energy Asia Group has expanded its offerings to include oilfield equipment alongside tubulars.

Mike is the founder and managing director of Energy Asia Group Pte Ltd. A specialist in tubular, he has amassed a wealth of experience over the years in identifying and sourcing tubular from decommissioned rigs, traders, brokers and drilling contractors.

Asia now needs a specific energy transition model that reflects the different states of economies and finds the "sweet spot" in the energy trilemma of security, affordability and sustainability. What are the key success factors and enablers that can create the right pace for Asia's energy transition and transform the region into an ...
