SOLAR PRO. Thai energy storage Haiti

Who is Thai Energy Storage Technology plc?

THAI ENERGY STORAGE TECHNOLOGY PLC. Formerly "Thai Storage Battery Company Limited" was found in 1986 and became a public company limited in 1994. It has become one member of Hitachi Chemical Groupin September 2017 and changed the company name to "Hitachi Chemical Storage Battery (Thailand) Public Company Limited" by the time of 3rd January 2019.

Why is Haiti struggling to modernise its energy sector?

Haiti's recent battles to modernise its energy sector serve as a stark lesson for how fraught the business of energy transition can be. In the wake of the scandal, the struggle to provide Haiti's 11 million people with reliable energy - and the desire to attract foreign investment to do so - has taken on an evermore politically charged hue.

Can private investment help solve Haiti's energy crisis?

"We have had this energy crisis for a long time,more than 20 years," says Evenson Calixte,managing director of Haiti's Autorité Nationale de Régulation du Secteur de l'Energie (ANARSE),the nation's energy regulatory authority. "And we believe that one element that can help reform this sector is private investment."

The success of the Ban Pha Dan system demonstrates the benefits of solar-powered microgrids with energy storage for remote communities in developing nations, including the Asia-Pacific region, southern Africa and even remote mining communities in Australia.

THAILAND ENERGY STORAGE INITIATIVE is a home for pioneering research, innovation, and collaboration in energy storage technologies. Our consortium unites experts, researchers, and industry leaders to drive advancements in sustainable energy storage solutions that will power Thailand's future.
