

The acquisition is planned to be closed end of January 2022. At the same time as PSW Power & Automation AS takes over the shares in Trans Construction AS, it is a pleasure to announce that we have been awarded a contract from Siemens Energy AS to deliver an E-House module to be used for Direct Electric Heating (DEH) of an offshore pipeline.

PSW Power & Automation has signed a sizeable contract for a battery storage system with Uddevalla Energi in Sweden. The battery system will ensure that excess energy is stored and released when needed, and thereby ...

PSW Power and Automation is a leader in the development and supply of mobile, semi-mobile and permanently installed battery storage and general energy solutions. We provide storage solutions for island, microgrid and grid-connected architecture in industrial projects as well as larger scale infrastructure projects.

PSW Power & Automation (PSW) delivers the BQ-G modular battery pack for use in energy storage systems. Suitable for large-scale energy storage, the solution stores excess energy generated by renewable sources ...

PSW Modules is a leading engineering company with extensive track record and has specialized on design and production of custom modules solutions to the maritime, on- and offshore based industry. Our services range from design and construction of complex modules delivered as turnkey solutions with multi-discipline engineering, fabrication ...

PSW Power & Automation (PSW) delivers the BQ-G modular battery pack for use in energy storage systems. Suitable for large-scale energy storage, the solution stores excess energy generated by renewable sources and releases it into the grid as needed.

PSW Power & Automation delivers complete solutions within electrification and renewable energy. The company specializes in the design and integration of electrical power systems, electrical infrastructure, energy storage systems and ...

We deliver complete solutions in electrification and renewable energy. The company specializes in the design and integration of electrical power systems, electrical infrastructure, energy storage systems, and control systems.

PSW Power & Automation provides electrification and renewable energy solutions, including mobile batteries for zero-emission construction sites and power stabilizing battery packs for grids. They also offer dynamic power sharing solutions for customer grids with no other energy producers connected.

PSW Power & Automation delivers complete solutions within electrification and renewable energy. The company specializes in the design and integration of ESS and electrical power systems, electrical infrastructure, energy storage and energy control.

PSW Power & Automation will design and manufacture the module-based shore power units with integrated frequency converters, switchgear, transformer and energy management system. This is a sizeable (1) contract for the company.

PSW Power & Automation is entering the balance market in Norway. In addition to delivering the physical products, PSW will provide software functions for Primary Reserve ...

PSW Power & Automation delivers complete solutions within electrification and renewable energy. The company specializes in the design and integration of electrical power systems, electrical infrastructure, energy storage systems and control systems.
