How many solar companies are there in Georgia?

According to data from the Solar Energy Industries Association (SEIA), Georgia is home to more than 85 solar providers. Each of these companies brings something unique to the table, whether that's the best solar panel brands, below-average pricing or outstanding customer service.

Are solar panels worth it in Georgia?

Georgia gets plenty of sun. You can use that to your advantage if you get solar panels. Like the rest of the sunny South, Georgia has plenty of sunshine to make solar panels worth it. Its incentives lag behind other states, though, making solar a less attractive option for homeowners looking to save money on their electric bills.

How do I choose a solar company in Georgia?

Solar companies that are licensed, insured and hold certifications take their business seriously. Look for companies that have NABCEP Certified professionals or certified electricians on staff and are properly insured, so their workers, and you, are protected. In Georgia, a solar installer must be associated with a licensed electrical contractor.

Is Georgia a good state for solar energy?

Georgia, boasting the third-highest installed solar capacity in the Southeast at 3,769 megawatts, is at the forefront of solar adoption, reflecting the state's growing commitment to renewable energy. The research underscores a positive sentiment toward solar energy among Georgians:

How do I find a solar installer in Georgia?

Ask for licenses: Solar installers in Georgia need to be associated with a "licensed electrical contractor," according to the state government. You can ask potential installers or search their licenses with the state or a national certifying board, like the North American Board of Certified Energy Practitioners.
