

# The price of Hanergy's solar power generation

Will Hanergy be able to build solar-powered vehicles and garments?

Hanergy's plans for solar-powered vehicles and solar-powered garments largely draw on different technology developed by the US-based developers in which it has invested. Earlier this year, Hanergy agreed to establish a joint lab with bike sharing start-up Mobike, to research the use of thin film solar on bicycles.

Does Hanergy have a triple arch solar roof tile?

Hanergy's triple arch solar tile. Source: Hanergy Thin Film Power Group Ltd China's Hanergy Thin Film Power Group Ltd (HKG:0566), or Hanergy TFP, on Saturday expanded its distributed solar offerings by launching its own solar roof tile for the domestic market.

Did Hanergy rely on bank loans to build new factories?

Chinese media have reported that Hanergy relied on bank loans to fund the construction of new factories and to pay off previous loans. Two of those facilities, in the central city of Nanjing and the northeastern development zone Caofeidian, will complete test runs at the end of this year, Hanergy said this week in response to FT queries.

Why did Hanergy suspend its stock?

The city government will hold the remaining 30 per cent, according to the local planning bureau. Hanergy's stock suspension was a "disaster" for the company, Mr Li said at the time, depriving it of a funding channel to service loans and funds raised through China's high-interest shadow financing sector.

Did Hanergy rely on shadow financing?

In its 2015 IPO prospectus, Hong Kong-listed Bank of Jinzhou revealed that it had \$440m in exposure to Hanergy debt. In a series of reports before the 2015 crash, the Financial Times detailed Hanergy's reliance on shadow financing and the unusual pattern of trading in its Hong Kong shares, which rose in the last 10 minutes of the trading day.

Will Hanergy stock resume trading in Hong Kong?

Mr Li has not been silent over the past two years, which he has spent battling Hong Kong regulators to allow Hanergy stock to resume trading while promoting grandiose plans to develop solar-powered automobiles. The Datong deal signed last week is the first investment commitment by Hanergy since its suspension.
