Welcome to the virtual tour of the Bouillante geothermal power plant, an energy gem nestled in the heart of Guadeloupe. Embark on a journey through this innovative renewable energy source, where Earth's heat is harnessed to provide electricity and warmth to thousands of homes.

Ormat Technologies, Inc. (NYSE: ORA) signs a 30-year Power Purchase Agreement with Electricit& de France (EDF) for a new 10MW geothermal power plant in Guadeloupe, expanding its presence in the region.

5 ???· Titan New Energy plans to invest approximately US\$1 billion in establishing a 720 megawatts waste-to-energy power plant in Hwange and a 200MW solar power plant in Gweru, the company has revealed. The project is scheduled for full construction completion and commercial operation by the end of 2028, with an expected annual power output of 5,76 GKWh. The ...

The reasons seems to be the lack of interest by EDF, which had decided to reduce its stake in the plant to a symbolic level. It also had abandoned a geothermal project in Dominica, which would have provided electricity to Guadeloupe and Martinique.

The new power plant will be a sea water-cooled binary system using state-of-the-art Ormat Energy Converters (OEC). The system will be positioned approximately 100 meters above sea level and will incorporate an intermediate ...
