

Who is responsible for the energy sector in Togo?

Another important player in the energy sector is the Togolese Agency for Rural Electrification and Renewable Energies(AT2ER),a public institution,with financial autonomy. The agency is in charge of implementing the country's rural electrification policy,promoting and developing renewable energies.

What percentage of the Togolese population has access to electricity?

Less than half of the Togolese population has access to electricity. The country has a relatively diversified energy mix and more than 13% of its final energy consumption comes from renewable supplies of energy,mainly hydropower. Less than half of the Togolese population has access to electricity.

How does regional electricity trading affect Benin and Togo?

Electricity is imported from Nigeria and Ghana via the CEB interconnectors,with the remainder being supplied by the Contour Global power plant and other smaller domestic sources. Nevertheless,regional electricity trading has a positive impact on the energy sector and economy of Benin and Togo.

What type of electricity does Togo use?

Renewable electricity here is the sum of hydropower,wind,solar,geothermal,modern biomass and wave and tidal power. Traditional biomass - the burning of charcoal,crop waste,and other organic matter - is not included. This can be an important source in lower-income settings. Togo: How much of the country's electricity comes from nuclear power?

Does Togo have universal access to electricity?

Access has increased in Togo from 17% in 2000 to 53% in 2020. This is higher than the figure (43%) for all low income countries but has a long way to go. The small West African country plans to achieve universal access to electricity by 2030. Its main challenges are capacity, technology and expertise for generation.

How many people in Togo have no electricity?

Over 56% live in rural areas and many lack basic services such as healthcare,education and safe drinking water. One of the key resources to develop these basic services and the economy is electricity. Just under half of Togo's 8 million people have no access to electricity,especially in rural areas.
