

How can Tonga transform its energy sector?

The Government of Tonga has formulated targets to transform its energy sector by achieving a 50 percent share of renewables in the country's energy generation mix by 2020 and 70 percent by 2030. However, achieving these targets require catalytic investments to transform the country's energy infrastructure.

Who is LERTA - photon energy group?

Lerta joins Photon Energy Group, expanding our comprehensive clean energy solutions even further. We add eight new PV power plants to our Romanian portfolio, with a total capacity of 31.5 MWp. Georg co-founded Photon Energy in 2008 and was the company's CFO until 2011.

How much energy does Tonga generate?

It accounts for 90 percent of its electricity generation. The Government of Tonga has formulated targets to transform its energy sector by achieving a 50 percent share of renewables in the country's energy generation mix by 2020 and 70 percent by 2030.

What is photon energy & LERTA?

Photon Energy and Lerta provide comprehensive renewable energy solutions, including solar power and energy flexibility. Photon Water offers water treatment and management solutions, and our remediation technology removes contaminants from water and soil.

Is photon energy a publicly traded company?

A publicly traded company, Photon Energy N.V. is listed in Warsaw, Frankfurt and Prague, as well as online trading platform Xetra. The future starts with you. If you're looking for a new challenge and want to work in a dynamic, future-facing environment, we want to hear from you.

How will Tonga move away from fossil fuels?

This project aims to help Tonga move away from fossil fuels and shift to renewables. The project will deliver utility-scale storage systems to provide base load response and grid stability, paving the way for more renewable energy integration in the main island, while green mini-grids will be installed in the outer islands.

About Photon Energy Group - photonenergy . Photon Energy Group is a group of companies providing renewable energy, clean water and environmental remediation solutions worldwide. Photon Energy and Lerta provide comprehensive renewable energy solutions, including solar power and energy flexibility. Since its foundation in 2008, Photon ...

About Photon Energy Group - photonenergy . Photon Energy Group delivers solar energy and clean water solutions around the world. Its solar power services are provided by Photon Energy; since its foundation in 2008, Photon Energy has built and commissioned solar power plants with a combined capacity of over 160

MWp and has power ...

We offer comprehensive renewable energy solutions to help everyone benefit from the green transition. With over 15 years of industry experience, our work ranges from the development, construction and operation of solar power installations to ...
