

What are the top solar panel brands in 2024?

February 13, 2024 - Today, SolarReviews released its annual solar panel brand ranking list, and Qcells has been crowned the top solar panel brand for the second year in a row! Details around the ranking list can be found here, but here is a quick snapshot of the top 2024 solar panel brands:

Who makes the best solar panels?

Panasonic: Panasonic, a leader in home electronics, is also a top name in the solar industry. Its solar panels and battery both made it on our "best of" lists because of their top quality and great performance. However, the company falls behind regarding U.S. investment and doesn't manufacture its own panels.

Is 2023 a good year for solar?

"2023 was an interesting year for solar, with rising interest rates and changes to major state solar policies altering the industry landscape. It's more important than ever that homeowners and installers have access to trustworthy information about investing in solar. That's why SolarReviews created a list of the top solar panel brands.

What are the best solar panels in China?

Fourth on our list is JA Solar, a Chinese solar brand known for its low prices and reliable products. At an estimated cost of \$2.65 per watt installed, JA panels stand significantly below the national average solar installation cost of \$3.00 per watt, earning them the title of the best value panel in our ranking.

What are the best solar panels for homes?

Panasonic Solaris is our top pick for the best solar panels for homes. Instead of focusing on one or a few products that could work for any situation, the company continues to develop a wide selection of high-quality and versatile product lines to ensure consumers can install the solar panels and products best suited to their homes and needs.

Are Topcon solar panels a good choice?

TOPCon is top dog. Many solar panel brands started adopting TOPCon solar technology in 2023 and will likely continue in 2024. TOPCon solar cells can generate electricity quite efficiently and have closed the gap between the performance of premium brands and value brands even further.
