

Why are solar PV systems so popular in Trinidad and Tobago?

This makes the Solar photovoltaic (PV) systems very applicable for Trinidad and Tobago. The cost for these systems are constantly coming down. The government is encouraging the use of Solar energy through tax incentives, thus making PV systems more attractive for domestic and commercial use.

Who is building the largest solar project in Trinidad and Tobago?

Today, the Government of Trinidad and Tobago has officially given the green light to project partners, bp, Shell and Lightsource bp to begin construction of the largest solar project in the Caribbean.

How can energy service companies support energy audits in Trinidad & Tobago?

Energy Service Companies (ESCOs) for the conduct of energy audits can be expected to play an increasingly important role, and T&T will be seeking to build local capacity in the conduct of energy audits and other energy services. Incentives currently being offered to encourage the conduct of energy audits in Trinidad and Tobago are as follows:

Is Trinidad ready for more solar power?

Every person involved in the process has certified solar installation training. Didn't know that was a thing in Trinidad, right? We're definitely ready for more solar power to make a better, more eco-friendly and sustainable world for us all. We understand that solar power is a bit more expensive than other power systems.

Can Lightsource BP accelerate the energy transition in Trinidad & Tobago?

With the experience of bp and Shell, as major operators in Trinidad and Tobago's energy industry, combined with Lightsource bp's global solar expertise, the group represents the huge potential to accelerate the energy transition through collaboration.

Who owns 148mwp solar project in Trinidad & Tobago?

The Government of the Republic of Trinidad and Tobago (GoRTT) has approved the consortium partners 148MWp solar project. The consortium have reached the Final Investment Decision, with bp and Shell initially having joint shareholdings of the project (50/50).
