How much does a Trinity Solar System cost?

The average cost of solar panel systems in the US is about \$16,000, with a range of \$4,500 and \$36,000. There are three ways to pay for a Trinity Solar installation system: \$0 Upfront: With this method, the homeowner leases the system from Trinity with zero money due upfront.

What warranties does Trinity solar offer?

Trinity Solar's warranties are relatively basic. The company offers a five-year warranty on workmanship for any solar, roofing or battery backup installations. The company also passes manufacturer warranties onto the customer, which usually covers the products for 25 years, but this depends on the brand and products chosen.

What is a railless solar bracket?

Unlike traditional railed systems, railless brackets eliminate the need for a continuous rail, simplifying the installation process and reducing material costs. The top-of-pole solar bracket is a mounting system used to securely install solar panels on top of a pole or post.

Who is Trinity solar?

Trinity Solar is a solar and roofing installation company that serves most states on the East Coast. It has been in business since 1994, but was run as an HVAC-focused company until 2004, when solar became its focus. In that time, it has served over 830,000 families across the coast.
