

PV Cell for Garden Light. The garden light PV series, is mainly used in solar products for lighting and decorating purposes, such as street lamp, tile lamp, lawn lamp, decorative lamp etc.. In the daytime, it generates electricity and store in the battery under sunlight.

TRONY, founded in 1993, is the largest amorphous silicon thin film solar cell manufacturer and solutions provider in China. It uses the latest in second-generation thin film solar production and R & D core technology. Trony emphasizes continuous innovation, thereby creating products with unique core competencies. Green Manufacturer

TRONY, founded in 1993, is a famous amorphous silicon thin film solar cell manufacturer and solutions provider in China. It uses the latest in second-generation thin film solar production and R & D core technology. Trony emphasizes continuous innovation, thereby creating products with unique core competencies.

Founded in 1993, Trony Group is a well-known domestic manufacturer of thin-film solar cells and the world's leading supplier of photovoltaic energy solutions. Currently, it has more than 400 photovoltaic patented technologies, and has mastered the core technology of production and research and development of second-generation thin-film solar ...

Founded in 1993, Trony Group is a well-known domestic manufacturer of thin-film solar cells and a world-leading supplier of photovoltaic energy solutions. At present, it has more than 400 photovoltaic patented technologies, and has mastered the core technology of the second-generation thin-film solar cell production and development.

Trony Solar manufactures thin film PV moduels, solar embedded cells and BIPV (Building Integrated PV). The company in 2006 started manufacturing standard PV modules for solar home systems and other solar off-grid applications Trony's annual manufacturing capacity is 205 MW as of 2011 and plans to expand the annual manufacturing capacity to 265 MW

As an enterprise manufacturing amorphous silicon thin film solar cells, Trony Science is bound to shoulder the historic mission of development of environmentally friendly new energy, and make due contribution to enable solar energy to enter into thousands of families and initiate a brand new living style for the low carbon era of human beings.
