

President of TYG Energy Systems, has over 30 years of field experience as an oil and gas professional. He is passionate about providing cost-effective solutions for his customers' reliability and quality assurance concerns in both the hydrocarbon and the electrical utilities industries.

The mission of TYG Energy Systems is to provide the highest quality solutions based on proven technologies so that our customers can enjoy a market basket of choices to solve their business challenges. By empowering our customers collectively, we will all be successful.

Solar Fiji specialize in the engineering, supply & installation of grid connect and off grid power systems. Official Distributor & Service Partner of Victron Energy. We draw on decades of experience in the solar industry and a track record of successfully deploying over 20MWp of solar projects in Australia and the South Pacific.

Positioned to benefit from growing energy demand and accelerated efforts to reduce global CO2 emissions in energy production, TYG invests in energy infrastructure companies that generate, transport and distribute electricity, as well as process, store, distribute and market natural gas, natural gas liquids, refined products and crude oil.
