

What is the Virgin Islands Energy Office?

The Virgin Islands Energy Office (VIEO) is focused on promoting sustainable energy policies in the Virgin Islands through clean energy production and distribution, energy efficiency, transportation, and energy consumption. It achieves this through outreach, financial incentives, training, and technical assistance.

Why is the US Virgin Islands not resolving its energy problems?

The US Virgin Islands has yet to begin resolving its energy problems, which is hindering its economic growth. Hurricanes Maria and Irma destroyed much of the USVI's energy infrastructure and further weakened an already unreliable and inefficient power grid.

Why is the US Virgin Islands a state of emergency?

U.S. VIRGIN ISLANDS -- Governor Albert Bryan Jr. has declared a State of Emergency to address the ongoing energy production shortfalls impacting the U.S. Virgin Islands. The declaration was made during a special press briefing held at the Government House on St. Thomas.

Should the US Virgin Islands emulate Puerto Rico?

The US Virgin Islands should adopt Puerto Rico's approach and rely on the private sector to produce its energy, instead of relying on the federal government to invest more funds to build unnecessary energy production. Ike Brannon, a former senior economist for the United States Treasury and U.S. Congress, suggests this approach. Follow me on Twitter or LinkedIn.

What is the main source of energy in the Virgin Islands?

In the U.S. Virgin Islands, nearly all of the energy is provided by imported petroleum products, with about 70% of petroleum consumption being distillate fuel and residual fuel.

How much of the US Virgin Islands' electricity is generated by solar?

In 2020, about 20% of the US Virgin Islands' electricity was generated by renewables. Approximately 80% of this renewable capacity came from customer-installed, small rooftop solar panel systems, while the remaining 20% came from utility-scale solar energy facilities.

Gov. Albert Bryan Jr. has declared a local State of Emergency to tackle the territory's energy crisis and prevent further rotational power outages from crippling the U.S. Virgin Islands.

Since 1999 the Virgin Islands Source - the only online newspaper of general circulation in the U.S. Virgin Islands - has been providing the community with reliable, accurate and balanced local journalism.
