

ProSolar Caribbean is the premier Solar Energy company serving the U.S. Virgin Island, and we have been for over a decade. We offer a wide variety of renewable energy products and services. We can help you reduce energy costs, go completely off-grid, or both!

The USVI Solar+ Financing (SPF) Pilot Program is a loan program for residential solar PV and Battery systems being offered through the Virgin Islands Energy Office and the VI Water and Power Authority. Through on-bill repayment this program allows property owners to pay for renewable energy systems through their monthly utility bill.

Carib Sun Energy is your local full service residential & commercial solar provider. When you decide to switch to solar, we take care of every step; including engineering, permits, installation and ongoing monitoring of your system performance .

Solar electric systems generate electricity silently and without any moving parts. Sunlight falls on the solar array and generates DC electricity. That DC electricity is converted into household 240V AC electricity by the inverter. The AC electricity is fed ...

In July 2009, the Virgin Islands (USVI) passed Act 7075. Among other provisions, the legislation establishes that the “peak demanded generating capacity” of the Virgin Islands Water and Power Authority* must be from renewables according to the following schedule: 20% by January 1, 2015; 25% by January 1, 2020; 30% by January 1, 2025
