The BESS comprises 48 units of Sermatec"s EasyCube Series 372kWh Energy Storage Systems, which utilise 3.2V 280Ah lithium iron phosphate (LFP) batteries. The company also deployed its in-house developed energy management system (EMS) and battery management system (BMS) for the project.

In this in-depth tutorial, we will delve into the realm of household solar batteries in Uganda, investigating their benefits, how they operate, and why they represent the future of powering homes in this beautiful East African country.

Shanghai Sermatec Energy Technology Co., Ltd. is the professional energy storage solution supplier, with the core technology on storage inverter, integrating LFP battery, power system and energy management system, dedicating to ESS products supply and ESS plant operation & ...

With the development of the energy storage market, traditional grid-connected inverters have been unable to meet the needs of customers. According to different application scenarios, there is a need for grid-connected functions, and there is a need for off-grid functions, especially in the home energy storage market. In the grid-connected and off-grid states, the inverter is required ...

To use this integration with Energy Dashboard or to calculate energy usage/import/export etc. you need to use the Riemann sum integration.You can use a new GUI setup in a Helpers category (which is recommended), or an old yaml config method, example is below.

This blog post unveils the top budget-friendly solar battery options available in our country. We"ll explore key considerations for choosing an affordable battery and highlight some fantastic options that won"t break the ban
