

Where is xendee headquartered?

XENDEE develops advanced software for financial & technical optimization and operation of resilient Microgrids and renewable energy systems. and is headquartered in San Diego, California, United States. Where is XENDEE Corporation 's headquarters? XENDEE Corporation is located in San Diego, California, United States.

When did xendee Corporation close?

XENDEE Corporation closed its last funding round on Jun 15, 2022 from a Series A round. Who are XENDEE Corporation 's competitors? Alternatives and possible competitors to XENDEE Corporation may include Radiant , Type One Energy , and Veloce Energy.

Will xendee develop an EV charging infrastructure project?

More than 80% of Xendee 2024 Commercial EV Charging Survey respondents said their organization will develop at least one EV charging infrastructure project within the next five years that they wouldn't have without the Bipartisan Infrastructure Law (BIL) and Inflation Reduction Act (IRA) incentives.

What is xendee's proposal?

Xendee's PROPOSE is a catalog driven proposal tool designed to win deals fast and pass projects to engineers effectively. Propose Solutions-> With DESIGN, quickly model detailed power and thermal flow in your microgrid/DER network together with financial constraints. Design for Optimal Performance->

With more than 40 years of international experience in the design and the economic and financial analysis of hybrid renewable and microgrid projects, Peter Lilienthal brings knowledge and ...

Xendee, which develops microgrid decision support software, reached its four-year anniversary this month and with it came the brass ring so many microgrid startups seek -- its Series A financing.

SAN DIEGO-(BUSINESS WIRE)-Xendee Corporation, provider of the leading design and operation platform for distributed energy and microgrid systems, announced today that Peter Lilienthal has joined as an advisor.

Xendee is an award-winning software platform built to integrate the feasibility analysis, detailed engineering, and operation of Distributed Energy Resources and EV fast-charging infrastructure. This includes the ability to rapidly model EV infrastructure for fleet owners, complex energy systems with up to 25 unique DER technologies, multi-node ...

SAN DIEGO-(BUSINESS WIRE)-XENDEE Corporation, a leader in distributed energy resources (DER) planning and operation software, today announced that it has raised \$12M in Series A financing to increase the company's Net-Zero DER and ultra-fast Electric Vehicle (EV) charging platform deployments.

With more than 40 years of international experience in the design and the economic and financial analysis of hybrid renewable and microgrid projects, Peter Lilienthal brings knowledge and insight to the Xendee team to help develop Xendee's international presence in areas such as Africa, Asia-Pacific, and other emerging markets around the world.
