Supported by Innovation Norway and the EU Energy Commission, UNITECH Energy will manufacture and deploy the patented inter-array cable applications and cable global hang off technologies within a next-gen wind park to fully demonstrate the paradigm shift in offshore floating wind technologies that they are proud to bring to market.

Unitech is committed to tackling the energy sector's most pressing issues, including Price, Quantity, and Quality of energy consumed. Our dedicated team creates new operating models and intelligent solutions to enable a change in your company's performance.

UNITECH's Single Source Solutions are an integrated range of products and services enabling savings up to 30% on subsea distribution projects. Our Single Source Solutions reduce project risk by eliminating interface issues and enables contractual optimization by reducing spare inventory requirements across multiple field developments.
