Find company information, contact details, financial data & company linkages for SAM CELL AND GENE THERAPY FOR MOLECULAR BIOLOGY TECHNOLOGIES COMPANY L.L.C of Dubai, United Arab Emirates.

We work to create green and sustainable solutions that benefit the UAE economy and society in the long run. Bolstered by a well-resourced team of scientists and researchers, our core focus domains include bioenergy and fuel cells, energy storage, energy analysis and optimized systems design and modelling, and modernized energy solutions.

Our technologies respond to a comprehensive array of stimuli, including heat, light, pressure, radio, chemical, biological and other signals. Our sensor applications are also comprehensive, ranging from low-cost indicators--such as single-use sterilisation test strips--to advanced, automated diagnostic devices.

ADSCC, Abu Dhabi's premier stem cell therapy center, offers cutting-edge treatments including CAR-T cell therapy, multiple sclerosis treatment, and regenerative medicine. Explore advanced stem cell research and therapies in the UAE.
