

To meet the needs for large-scale, integrated, and high-performance solar and storage solutions, covering the entire value chain from design to operation, Equans is launching Equans Solar & Storage.

Equans Solar & Storage and Destia are pleased to announce the signing of a Memorandum of Understanding (MoU) to cooperate on accelerating the development of large-scale solar PV in Finland. As the demand for green electricity grows in Finland, large-scale solar farms shall take a growing share in the mix in the very coming years. Destia sees ...

Equans is the leader in the main European markets (France, Switzerland, Belgium, the Netherlands and the United Kingdom) and is also well positioned in the United States and Latin America. About Equans Solar & Storage. Leveraging decades of experience, Equans Solar & Storage is the one-stop partner for scaled, integrated and performant ...

To meet the needs for large-scale, integrated, and high-performance solar and storage solutions, covering the entire value chain from design to operation, Equans is launching Equans Solar & Storage. Equans Solar & Storage brings together 1,500 employees from the Equans Group, specialised in the

Solar & Storage As global demand sets ever more ambitious renewable energy supply targets, growing challenges have to be met in energy storage, grid-balancing and frequency response. We are at the forefront of the expanding battery storage market, a key enabler for smart grids.

We design and deliver turnkey utility scale solar PV farms of the highest quality, which consistently outperform competition. We use tier-1 equipment exclusively, and provide best-in-class maintenance to the assets we build; guaranteeing long term project performance.

For both case solar PV or Energy Storage projects, innovation is key. At the same time, various sites such as agriculture sites, highways, and shopping centers (with car canopies), require higher profitability through optimization of their ground-mounted or floating infrastructures, offering optimized PV plants solutions among which linear ...

Equans Solar & Storage is an Equans" speciality brand. Equans, a Bouygues group company, is a world leader in the energy and services sector, operating in 20 countries, with 90,000 employees* working on five continents and annual sales of nearly EUR18 billion**. *Combined figure (Equans+ Bouygues Energies Services) at 31 December 2022 ...

How is Equans navigating this transformative era through its innovative Solar and Storage Solutions? ERIK GROEN: This revolution is redefining energy systems from the ground up. We're moving from centralised

power generation to a ...

How is Equans navigating this transformative era through its innovative Solar and Storage Solutions? ERIK GROEN: This revolution is redefining energy systems from the ground up. We're moving from centralised power generation to a decentralised, diverse energy landscape with solar and wind energy.

To date, the company has installed 5.5 GW of solar energy capacity and maintains approximately 2 GW of solar PV assets. We have consolidated our position in 15 countries across five continents, including France, Belgium, the ...

Flintshire Solar Farm . In February 2021, Equans completed work on a 3.1m solar farm on behalf of Flintshire County Council. As part of the project, Equans installed 9000 400W solar photovoltaic (PV) panels across two brownfield site locations in Flintshire - a former chemical works at Crumps Yard in Connah's Quay and a site in Flint previously used for landfill.

We activate our in-house and local expertise (design, installation, maintenance, PV project management, BESS, grid integration, substations...) to successfully develop and implement integrated, turnkey, tried-and-true solar PV and storage solutions with highest level of safety, social and environmental sustainability.

We install roof mounted Solar PV, helping our clients to meet their demand for electricity generated onsite from a renewable source. We also provide measurement and verification using smart metering and digital data, enabling ...

Erik Groen, can you tell us about your role at Equans and the importance of the new Solar & Storage Systems Business Unit? ERIK GROEN: I head up the new Battery Storage Business Unit at Equans and report directly to Elizabeth ...

We design, install, commission and operate large scale solar PV farms for our clients. Supplying renewable energy from solar power plants enables local communities to reduce costs and reduce their carbon footprint. ... EQUANS is a world leader in energy services with nearly 100,000 employees working in more than 50 countries, with an annual ...
