

What is an accessory frame bracket?

The Accessory Frame Bracket offers fast, on the ground installation for mounting module level electronics directly to the module frame. It works with rail-based racking systems, ballasted, and ground-mounted systems. Formed membrane covers are matched to major roofing brands to ensure a tested, engineered system for TPO, PVC, and KEE roofs.

Which solar racking system is right for You?

But harnessing this power requires a sturdy foundation - a reliable solar racking system. Two prominent names in this arena are IronRidge and Blue Pacific Solar, offering both pre-built and DIY options for securing your solar panels to the roof. IronRidge boasts a reputation for robust and adaptable mounting systems.

What makes the ironridge solar powere flush mount system unique?

Every component in the IronRidge Solar Powere Flush Mount System has been tested to the limit and proven in extreme environments: rain, wind and snow. IronRidge's rigorous approach has led to unique structural features, such as curved rails, universal fastening objects and reinforced flashings.

Why should you choose ironridge for your solar project?

Their comprehensive online design tool empowers precise solar project planning for optimal energy capture. Maximize your solar investment with Ironridge, where clean energy meets roof integrity. After you purchase, we will contact you for your specific layout and order the specific parts for your configuration.

What is the strongest attachment in solar roof protection?

The strongest attachment in solar. IronRidge FlashFoot2 raises the bar in solar roof protection. The unique water seal is both elevated and encapsulated, delivering redundant layers of protection against water intrusion.

How many attachment points does a solar panel have?

EXAMPLE: 10'40" Wide Solar Panels in Portrait = 40" X 10 = 400" X 2 (2 rails per row) = 800" / 72" = 12 Attachment Points in This Example. High Wind Areas Such as Florida or East Coast Would Require More Attachment Points (Usually every 4'). (Optional Attachment Solutions & Flashing Not Included in Base Price of Roof Rack Kit)
