

Universal Power Project Pvt Ltd has around 10 years of experience in providing Engineering Procurement and Construction (EPC) solutions on turnkey basis. It provides services in the areas of Power Transmission, Substations, Railways, Civil, Smart Infra, Solar and Cables.

Unlike a traditional powerbank that solely provides backup power when needed, the UPS remains in-line between your device and the power source and modulates the incoming power feed to prevent damage to your sensitive electronic equipment. Switchover to the device in the instance of a power outage is automatic and instantaneous.

With a widespread presence across Libya, World Power Solution ensures prompt and efficient delivery of generators, spare parts, and support services. Our network of service centers is strategically located to provide quick response times, minimizing downtime for our clients.

At Universal Power Solutions, we are on a mission to empower communities through our cutting-edge technology and innovative solutions. By harnessing the power of renewable energy, we are transforming the way communities access and utilize electricity, paving the way for a sustainable and brighter future.

Solar energy systems installed by the United Nations Development Program (UNDP) in Libya are providing nine hospitals in Tripoli, Sebha and Benghazi with an uninterrupted power supply for critical health services.

To provide Renewable Solar Energy Production Solutions while remaining as Environmentally Conscious as possible in the process. Our Past Project Performance Upower, Inc. (UPI) is a global renewable energy producer and developer, specializing in Solar Projects and Battery Storage Production .

We take pride in providing reliable, efficient, and cost-effective solar solutions that harness the power of the sun to create a brighter tomorrow. From residential solar panels to large-scale commercial installations, we have the expertise to turn your vision of ...
