

The project will continue to be maintained by ENERCON under a long-term agreement and asset management services will continue to be delivered by SEG-Heliotec. Following the acquisition of the 50MW Cerro Grande project in 2019, this is the second Uruguayan ENERCON project that DIF has acquired.

CVC DIF has completed the sale of the Cerro Grande and Peralta wind farm projects in Uruguay to Pluspetrol. CVC DIF makes successful first divestment from Latin American portfolio. Operational improvements at the Cerro Grande and Peralta sites yielded significant efficiency gains.

Glad to announce that our client ENERCON together with eab New Energy GmbH has entered into a Share Purchase Agreement with Dutch fund DIF Infrastructure Fund V regarding the sale of 100% of their share interest in Ladaner S.A., owner of the 50MW Cerro Grande wind farm in Uruguay.

Located in the departments of Tacuarembó; and Cerro Largo, they feature 72 Enercon E-92 wind turbines, with a total installed capacity of approximately 170 MW. This infrastructure provides ...

Located in the departments of Tacuarembó; and Cerro Largo, they feature 72 Enercon E-92 wind turbines, with a total installed capacity of approximately 170 MW. This infrastructure provides sustainable energy to approximately 60,000 Uruguayan households, representing an annual reduction of around 25,000 tons of CO2 considering Uruguay's energy ...

The wind park consists of 50 ENERCON E-92 turbines of 2,35MW and has been operational since October 2015. It benefits from a 20-year power purchase agreement with UTE, Uruguay's state-owned utility and will continue to be maintained by ENERCON under a long-term EPK agreement.

Enercon was selected as the turbine supplier for the wind power project. The project consists of 50 units of E-92 / 2,350 kW turbines, each with 2.35MW nameplate capacity. Enercon is the O& M contractor for the Peralta (Peralta Phase II) for a period of 15 years.

CVC DIF, the infrastructure strategy of global private markets manager CVC, has announced the sale of its Cerro Grande and Peralta wind farm projects in Uruguay to Pluspetrol. The portfolio, consisting of 72 Enercon E-92 turbines, has an ...
