"SAE acquires full ownership of Uskmouth 120MW Battery Energy Storage System, strengthening its strategy to become an owner-operator and supporting UK's Net Zero targets." SAE has achieved the next step in delivering its 'Building a Sustainable Future to 2035' strategy by taking full ownership of the 120MW Battery Energy Storage ...

SAE is pleased to announce that the planned 230MW / 460MWh battery energy storage system at the Uskmouth site has been granted planning consent with conditions by Newport City Council. As announced on 24 May 2022, SAE has been working with Energy Optimisation Solutions ("EOS") and Quinbrook Infrastructure Partners, via their portfolio ...

Further to the Company's announcement of 23 February 2023, SAE are delighted to announce that Uskmouth Energy Storage Limited, a portfolio company of Quinbrook Infrastructure Partners, on 23 May 2023, gave formal notice of their exercise of the option to take a lease of land at the Group's Uskmouth site for one of the UK's largest BESS projects ...

SAE is pleased to announce that the next Battery Energy Storage System ("BESS") project at the Uskmouth site has been granted planning consent with conditions by Newport City Council. This is another significant milestone in the business's plan to develop 1GW of BESS at the Uskmouth Sustainable Energy Park, as set out in the business ...

Specialist investment manager Quinbrook Infrastructure Partners has partnered with E.ON to construct a 230MW/460MWh battery energy storage system (BESS) in Uskmouth, South Wales. The project, situated on the site of a former coal power station stockyard, will become one of the UK's largest BESS projects being developed to date.

In the comparative period last year, the Group recognised revenues of £10.0 million from the sale of development rights to the 230MW Battery Energy Storage System to Uskmouth Energy Storage Ltd. Revenues generated from the sale of electricity from the MeyGen Phase 1 tidal array remained steady at £1.9 million (H1 2023, £2.1 million).

SAE Renewables is a global developer, owner and operator of sustainable energy projects. SAE owns the world's flagship tidal stream project, MeyGen. SAE is also the owner of the Uskmouth Power Station site that is being repurposed into a sustainable energy park, initially housing one of the UK's largest battery energy storage projects.

SAE completed a share purchase agreement with Enso Green Holdings (Image credit: Pixabay) SIMEC Atlantis Energy (SAE) has taken full ownership of the 120MW Battery Energy Storage System (BESS) project at the Uskmouth Sustainable Energy Park.

Two large-scale storage facilities, each with a capacity of 230 megawatt-hours and an output of 115 megawatts, will be built on the site of a former coal-fired power station in Uskmouth, South Wales. Under the ...
