

What is solar power and how does it work in Vanuatu? Solar power involves converting sunlight into electricity using photovoltaic panels. In Vanuatu, solar power is commonly used as a renewable energy source to meet the needs of homes, businesses, and communities.

Welcome to AusPac Solar, your trusted provider of high-quality solar energy solutions in Vanuatu. Explore our range of solar panels, inverters, and systems designed for maximum efficiency and sustainability.

With the remoteness of the islands and limited access to centralised utilities, PCS also offers self supporting products suitable for the Vanuatu environment, including solar showers, hand spears, personal solar lighting and Lifestraw water filters.

We have AC sets which include everything you need from the panels, regulator / inverter and Batteries. For larger requirements you can set up an appointment to meet with our Technical Specialists. They will be able to give you a quote for a Solar System to meet your needs.

eTech Solar is accelerating the adoption of quality yet affordable solar technology across Vanuatu to conserve our environment and provide an environmentally friendly and sustainable power supply. We aim to be the best solar supply and installation company in Vanuatu for households, communities, villages, aid posts, hospitality industry ...

At Better Energy, our focus is on preserving and enhancing the effectiveness of your solar systems. Our services include annual panel cleanings, preventive maintenance, and PV system inspections to ensure optimal performance. We offer electrical testing, PV system monitoring, and performance analysis to guarantee the best results.
