

Specialties: We specialize in commercial and residential electrical. Home rewires, service upgrades, landscape lighting, hot tub installs, light fixture swaps and installs, generator installs, UPS system installs. Established in 2018. We are a ...

Omega Power est une entreprise basée en Nouvelle-Calédonie et au Vanuatu spécialisée dans la fabrication de batteries lithium (LiFePO4) de dernière génération. Nos sites de production sont ...

This project is aligned to the Government of Vanuatu's National Energy Road Map for increasing the energy access for rural communities in Vanuatu. The installed solar PV system is a stand-alone 230/400 VAC 50Hz solar micro-grid ...

Vanuatu's geography makes it difficult to create centralized energy systems, which leaves many communities and islands needing electricity, hindering development and forcing the use of fossil fuels for lighting. Only 20 percent of Vanuatu's rural residents have access to electricity.

Launched in September in the communities of Wintua and Lorlow, the micro-grid is Vanuatu's first-ever community-run power system: members of the communities own and manage it. This ...

Omega Power est une entreprise basée en Nouvelle-Calédonie et au Vanuatu spécialisée dans la fabrication de batteries lithium (LiFePO4) de dernière génération. Nos sites de production sont conçus pour répondre à la demande croissante des besoins en stockage d'énergie des particuliers et des professionnels de nos territoires.

PCS also provides support to the Vanuatu private and Government telecommunications sector, including greenfield tower builds, microwave and GSM installations, solar hybrid and power upgrades. Our expertise in the offgrid telecommunications arena allows PCS to provide unparalleled support to our remote installations.

The first ever hybrid system of renewable energy in Vanuatu, consisting of a pico-hydropower and Portable Voltage (PV) solar hybrid mini-grid system was officially launched on Monday, the 23rd of January 2023 at Lolong village in North Pentecost.

This project is aligned to the Government of Vanuatu's National Energy Road Map for increasing the energy access for rural communities in Vanuatu. The installed solar PV system is a stand-alone 230/400 VAC 50Hz solar micro-grid combined ...

and islands needing electricity, hindering development and forcing the use of fossil fuels for lighting. Only 20 percent of ...

Our Off Grid Energy solutions generate power with solar and store power in either LiIon or heavy duty rechargeable deep cycle batteries. Our offgrid solar systems are designed by SAPS designers and are customised to meet YOUR energy needs.

Launched in September in the communities of Wintua and Lorlow, the micro-grid is Vanuatu's first-ever community-run power system: members of the communities own and manage it. This keeps electricity costs low as there are no external operation costs or profit margin are usually incorporated into an electricity fee and passed onto consumers.
