Working at Vicor. Our cutting edge technology and highly dynamic, diverse workplace will provide you with the technical challenges, innovative concepts, and career success whose impact is felt worldwide. Vicor is an equal opportunity employer.

Vicor serves its customers through several sales channels: a direct sales force; a network of independent sales representative organizations in North America; independent, authorized distributors in Asia; and four globally franchised authorized stocking distributors.

Vicor customers are changing the world with their innovative technologies. From remote underwater marine life applications to above the clouds aviation and artificial intelligence, Vicor is powering their innovations.

Vicor Corporation, incorporated in 1981 in Andover, Massachusetts, designs, manufactures, and markets modular power components and complete power systems. These are used in electronic products to convert power from a primary power source (typically either alternating current from a mains outlet or direct current from a battery, rectifier or High-voltage direct current power distribution system) into the specific direct current required by electronic circuits. Vicor sells its products in ...
