

Who is Vyncke NV?

Vyncke NV is a fourth generation Belgian global family business that originated in Flanders. It has over 350 employees in Belgium, Brazil, China, Czech Republic, Germany, Malaysia, Spain, and Thailand.

Who is Dirk Vyncke?

The 1973 oil crisis presented an opportunity for Dirk Vyncke to convert the company into a global player, to turn biomass and waste into green and clean energy. In 1992, the enterprise became an NV. Peter Vyncke and his brother Dieter became co-CEO in 2002.

Who are Vyncke's customers?

Vyncke's oldest customer sectors extend from sawmills to wood-based panel manufacturers and pellet producers worldwide. (Credit: AzwoodEnergy/Wikipedia) Vyncke has come a long way since it made its first foray into the energy sector.

What makes Vyncke a good company?

VYNCKE is the type of company that you have to see for yourself. You have to experience the work environment, meet the friendly people, and witness the passion for innovation firsthand. It will give you a true sense of what it's like to work here. Although there is one thing that you can't see at our territory: our on-site installations.

What is Vyncke doing with RDF?

Vyncke currently has a project at a sawmill in France, where the client will use RDF to make energy for its production process, in this case a co-generation plant that will generate 5MW of electricity combined with another 15MW heat.

What career opportunities are available at Vyncke?

Explore career opportunities in internationally oriented roles such as mechanical engineering, field application engineering, and project management. Since 1999, our settlement in Brazil has been the cornerstone of VYNCKE's operations in Latin America.
