

The dominant construal of the ICJ opinion is that Western Sahara is entitled to a referendum for self-determination. However, the reference to the "peoples of the Territory" could be further construed in two different ways: as either a mandate for the territory's current occupants to determine which competing state has sovereignty over the territory, or as a mandate for the ...

Nowadays the western - the larger - part of Western Sahara's territory is controlled by Morocco. The main aim of this article is to provide an answer to the question of the present condition ...

The first round of land allocations in Morocco's green hydrogen investment process may soon be completed and is likely to include substantial areas in the contested territory of Western Sahara.

In late July, Morocco secured another diplomatic coup in a string of recent triumphs when France backed its territorial claims over Western Sahara. France joins a growing list of countries, including the United States, to champion the North African kingdom's plan for autonomy under Moroccan sovereignty. France's decision is, however, the source of much ...
