

What is the factory price of JA Solar panels

Is JA Solar a good brand?

JA Solar is considered a high-efficiency budget brand, so while the panels have good performance, the cost per watt is still below what most competitors charge. Temperature Coefficient (10%): The temperature coefficient of a panel tells you how much of the panel's efficiency is lost per degree over 77 degrees (F).

How many factories does JA Solar have?

The company has 9 manufacturing facilities in China and one in Malaysia and Vietnam with a total annual production capacity of 42.5 GW (reported by Bloomberg NEF). This makes JA Solar the third largest producer of Solar Panels as of September 2021. JA Solar has 25,000 employees as of 2022 working across 32 factories and branches around the world.

How efficient is JA Solar?

JA Solar has an average efficiency rating between 20% and 21%, putting it above the industry average. It also reaches max efficiency ratings of 22.5%, which puts it in the top five most efficient solar panel brands in the industry. High efficiency ratings mean greater production levels and higher savings over time.

What wattages does JA Solar have?

Featuring the most compact panels within JA Solar's lineup, the DeepBlue 3.0 Light series offers wattages ranging from 380 to 415 watts. While JA Solar typically provides larger panels compared to other brands, this series aligns more closely with industry standards.

Is JA Solar a Tier 1 manufacturer?

JA Solar is listed as a tier 1 manufacturer in Bloomberg's Q2 2020 report. What is PV Evolution Labs Top Performer? PV Evolution Labs with support from DNV GL independently test solar panel reliability. The tests are voluntary, with solar panel manufacturers paying to participate in the testing.

Is JA Solar a good investment?

Generally speaking, JA Solar presents a compelling option for budget-conscious homeowners. Their cost per watt is notably lower than many competitors. Within the mid-range price segment, their panels demonstrate above-average efficiency and performance. In essence, JA Solar offers commendable value for the investment.

While the national median price for solar panels stands at approximately \$2.66 per watt, JA's peers with similar efficiency benchmarks, such as REC, LONGi, Trina Solar, and Canadian Solar, typically have prices closer to \$3.00 per watt.
