

Where is the best place to install Longi photovoltaic panels

Where should LONGi Solar modules be installed?

LONGi Solar modules shall be installed on proper buildings or other appropriate places (such as ground, garage, building outer wall, rooftop, solar tracking system) but shall not be installed on any mobile vehicle. Do not install modules at the places that may be submerged by water.

What solar panels does Longi offer?

What solar panel modules does LONGi offer? LONGi offers four main module series, the Hi-MO 7, Hi-MO X6, Hi-MO 5, and Hi-MO 5m-- but only the Hi-MO 5m Series offers panels for residential use. Bifacial solar panels are not practical for residential installations but have gained popularity in commercial applications over the past few years.

Are LONGi Solar modules safe?

The design of LONGi Solar modules conforms to the IEC 61215 and IEC 61730 standards and its application level is rated as Class A. The modules can be used for the solar PV power systems above DC 50V or 240W which the people may access to. And the modules pass IEC61730-1 and IEC61730-2, meeting requirements of Safety Class II.

What temperature should LONGi Solar modules be installed in?

LONGi Solar recommends that modules are installed in the environment with the ambient temperature of -20°C to 46°C which is the monthly average highest and lowest temperature of the installation sites. The extreme ambient temperature for modules ranges from -40°C to 85°C .

Why should you choose LONGi Solar modules?

Our solar modules help accelerate the clean energy transition, making the world healthier and more sustainable. LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the clean energy transition.

Where should Longi modules be installed?

LONGi modules shall be installed on proper buildings or other appropriate places (such as ground, garage, building outer wall, roof, PV tracking system) but shall not be installed on any vehicles. Do not install modules at places that are possible to be flooded.
