

Does Senegal need a solar power plant?

Senegal's power sector has been historically reliant on costly fuel imports, with about 80 percent of its energy mix being oil-based. "The Kael and Kahone solar power plants exemplify our commitment to supporting Senegal's transition to cleaner, more affordable energy, while creating business opportunities for local communities.

Who sponsors Senegal's energy plants?

The two plants are sponsored by Engie, Meridiam, and the Senegalese Sovereign Wealth Fund for Strategic Investments (FONSIS). The competitive tendering was led by Senegal's Energy Regulatory Commission (CRSE).

How many people in Senegal will get solar power?

Nearly 540,000 people in Senegal will get access to clean and affordable power following the launch of two solar photovoltaic (PV) plants, financed by IFC, the European Investment Bank and Proparco, under the World Bank Group's Scaling Solar program.

Does Senegal have access to electricity?

The competitive tendering was led by Senegal's Energy Regulatory Commission (CRSE). Although the proportion of Senegalese people with access to electricity has increased sharply over the past 30 years, nearly a quarter of the population still lacks access.

Which Senegal power plants have a 60MW capacity?

The two plants that launched operations last month are located in Kael and Kahone in Western Senegal and have a total capacity of 60MW.
