

How much power does a Yamaha generator produce?

Packed with a powerful 80cc Yamaha engine, this generator delivers a high output of 2,400 starting watts with 1,900 running watts of pure power. Its clean inverter technology allows for the safe usage of sensitive electronics such as laptops, smart phones, speakers, and TVs.

What is the smallest Yamaha generator?

To put the newest Yamaha generator to the test, we opted to pick up the smallest and what we believe is the most versatile model in the lineup: the EF2200iS. Follow along as we dig into what makes this unit special. The Yamaha EF2200iS inverter generator is equipped with the company's 79cc MZ80 four-stroke single-cylinder engine.

What is a Yamaha ef2200is inverter generator?

The Yamaha EF2200iS Inverter Generator boasts a rugged design with a powerful high output Yamaha MZ80 engine. It supplies clean, high power output featuring Pulse Width Modulation (PWM) with its inverter system. The Tri-Handle Design makes loading, unloading, and moving the unit a breeze and is designed for two people to easily move the unit.

How loud is a Yamaha inverter generator?

If noise is a concern, then buying a Yamaha inverter generator like the EF2200iS is likely going to be your best bet. Yamaha states that this model will generate between 57 and 65 dBA, depending on load. For reference, 60 dBA is about the same loudness as normal conversation, and a standard lawnmower runs about 85 dBA.

Are Yamaha generators made in China?

However, Yamaha does assemble some products at a factory in China, and this EF2200iS is one of those models. There's no need to fret, however, as all Yamaha generators are built to the same stringent specifications and are backed by a 3-year warranty.

What is a Yamaha MZ80 generator used for?

Powered by a powerful Yamaha MZ80 engine, this generator is ideal for outdoor events such as concerts, camping trips, tailgating parties, racetracks, RVs, and many other applications. At only 51.8 pounds and a built-in wheel kit with handle, you can easily take portable power wherever you go. At 52 dBA, you are assured quiet operation.
