

What is Yuhua Agritech Solar Living Lab?

It is among the first rooftop projects in Singapore that link renewable energy and urban farming. The Yuhua Agritech Solar (YAS) Living Lab is a nearly \$400,000 site for research institutes, companies and heartlanders to run three-year projects.

How many solar PV systems are installed in Yuhua?

To date, we have installed 8 mega-watt-peak (MWp) of solar PV systems in different precincts, with another 46 MWp of solar PV systems committed across the island. 1.13 MWp of solar PV systems are also being installed on the rooftops of suitable HDB residential blocks at Yuhua.

What is energy saving in Yuhua?

Energy Savings through Sustainable Living solutions On average, the Elevator Energy Regeneration Systems (EERS) use 20 percent less energy than conventional lifts. These have been installed in 16 blocks throughout Yuhua estate. Outdoor street lights have been replaced with energy-saving LED lighting, reducing energy consumption by at least 50%.

Are solar panels in Jurong East a real thing?

Solar panels on rooftops are a common scene across Singapore, but the ones at a multi-story car park in Jurong East have a different story to tell. Underneath the blanket of solar panels on the rooftop of Block 354 Jurong East Avenue, 1 are leafy greens, muskmelons, and even fish and prawns.

How does Yuhua save water?

Lifts and common area lighting features are powered by energy generated by rooftop solar panning. Additionally, the Rainwater Harvesting System saves up to 1700 m³ of water per year. This is equal to the monthly water intake of 94 4-room HDB flat units. Through this project, Yuhua has been recognised with the BCA Green Mark Award (Platinum).

How has Yuhua's energy-saving street lights changed?

These have been installed in 16 blocks throughout Yuhua estate. Outdoor street lights have been replaced with energy-saving LED lighting, reducing energy consumption by at least 50%. Lifts and common area lighting features are powered by energy generated by rooftop solar panning.
