Are solar inverter batteries safe?

The batteries are part of the components that are kept indoors (in the case of a solar inverter). They are totally safeand can cause no damage. In fact,there has been near zero reports of electrical surge caused by inverter batteries. Batteries have been an important commodity for centuries.

How to choose an inverter battery?

The most important factor of an inverter battery is the capacity. The Voltage and AH will almost often determine the how expensive or cheap an inverter battery will go for. What I advise people to do is to find out what their power needs are before they even go shopping for an inverter or the batteries.
